

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

OCTOBER 14, 2014

On September 2, 2014, I introduced a motion directing County departments to report back on the potential impacts of a San Gabriel Mountains monument designation on public safety, flood control, and emergency services. On October 7, 2014, the Fire Department and the Department of Public Works responded with a list of essential departmental activities that need to be protected should a monument plan move forward; these activities included brush clearance, fire suppression tactics, flood control management and water resources management. On October 10, 2014, President Obama moved forward with the monument designation despite not having a clear understanding on what impacts this designation will have on county operations.

I, THEREFORE, MOVE that the Board of Supervisors direct the CEO to report back in 30 days on how the County will participate in the creation of the San Gabriel Mountains Monument Plan and identify any legislative actions needed to ensure that the essential departmental activities identified by the Fire Department and Department of Public Works are protected.
